February 1, 2011

The Honorable Kraig Paulsen  
Speaker of the House  
State Capitol Building

Dear Speaker Paulsen:

In accordance with Iowa Code section 12.38, I respectfully submit to you the Linked Investments for Tomorrow (LIFT) Annual Report. The attached report displays all linked investments outstanding as of December 31, 2010.

The Small Business LIFT Program injects capital into small businesses owned and operated by Iowa residents. One-half of the money allocated to the program is available for qualifying small businesses which are 51 percent or more owned, operated, and actively managed by one or more women, minority persons, or persons with disabilities.

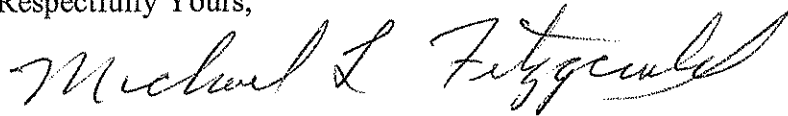

The state treasury works with Iowa financial institutions to offer low interest LIFT loans to Iowa small businesses. Small businesses contact their local financial institution and complete the normal lending process. Then the financial institutions can apply (on behalf of the small business) for the LIFT program. If approved, the state treasury purchases a certificate of deposit from the financial institution, and the financial institution uses the funds to make the loan to the small business. By statute, the term of each certificate of deposit cannot exceed one year, but may be renewed on an annual basis for a total term not to exceed five years. The lending financial institution pays the state three percent below the current one-year US Treasury for each certificate of deposit, but no less than one percent. The lending financial institution, in turn, may charge the borrower up to, but no more than, four percent above the rate paid to the state.

In 2010, the LIFT program made linked investments of \$5,919,482 to seventy six borrowers. Twenty five of these linked investments were to qualifying small businesses 51% or more owned, operated, and actively managed by one or more women, minority persons, or persons with disabilities. Normally, foregone interest occurs because LIFT investments earn less than the earnings rate of the state's general fund. However, because of the fixed income market environment this year, interest rates on general fund

investments were below 1.00% (the minimum interest rate earned on an outstanding LIFT CD). This meant that the treasury didn't have foregone interest. Instead, LIFT contributed an extra \$111,940.60 in earnings for the state's general fund.

Please feel free to contact Kyle Rice at 281-6878 if you have any questions or comments regarding this report or the Linked Investments for Tomorrow Program.

Respectfully Yours,

A handwritten signature in black ink, reading "Michael L. Fitzgerald". The signature is written in a cursive style with a large, stylized "M" and "F".

Michael L. Fitzgerald  
Treasurer of State
